DEDICATION

We, the Seniors of 1965, dedicate this edition of the Torch to our devoted parents. It is their support, their guidance, and their encouragement which has brought us thus far. It is their love and their teachings which will follow us throughout our lives. To those who have devoted their lives to us, we can return so little. This dedication is our small way of saying to them . . . "Thank you so very much."

Shadows take on many forms
As our lives progress each day.
There are shadows of sadness when we're feeling blue;
Shadows of laughter to make us gay.

Devotion and meditation are quiet shadows.
Fear and anger may show through.
There's a shadow of learning in all our lives;
A shadow of doubt for all that's new.

In each life there is a shadow.
It may be cast in any way.
Beware, my friend, when you cast yours;
It will follow you through every day.

We Seniors cast a shadow
As our futures we now pursue.
And may each shadow that we cast
Be a stepping stone for you.

*"It's been a blue,
blue day, but
there is always
tomorrow."*

*"Devotion in itself is
admirable; devotion to
a cause is heroic."*

*"Meditation can relax
the body, improve the
mind, and replenish
the soul."*

*"Laughter really
is the best
medicine."*

*"We all have our
individual fears.
Experience overcomes
many of them."*

*"Now you listen
to me, young
lady!"*

*"There is a shadow
of learning in all
our lives."*

*"The shadow of loneliness
may suddenly appear;
be careful not to let
it linger."*

*"There is a
'Doubting Thomas'
characteristic
in each human
being."*

SENIORS

SENIOR CLASS OF 1965

CLASS OFFICERS: Lynn Hurt, Janice Rutherford, Janice Ray, Judy Hess.

SENIOR HISTORY

It was only a few months ago that we, the class of '65, attained the exalted position of seniors. Our last year of high school began.

Our first action was to choose our class officers. Lynn Hunt was elected president with Janice Ray as vice-president. Janice Rutherford and Judy Hess were elected reporter and secretary-treasurer respectively. Also at this time we elected our Torch staff, consisting of ten members with Tommy Miller as editor-in-chief. It began its work immediately under the guidance of Miss Evelyn Honaker.

A long-awaited moment came in September when the class rings arrived. The seniors received them with much enthusiasm and pride.

Our next responsibility came in October when we chose our Senior Superlatives and Homecoming candidates. The four candidates were Dottie Dye, Brenda Horton, Linda McGlothlin, and Geneva VanDyke. On the night of our exciting Homecoming game, Geneva VanDyke was crowned Queen with Dottie Dye as Maid of Honor. Afterwards, we attended the unforgettable Homecoming dance.

Many activities are to follow throughout the year, including the Junior-Senior Prom in the spring. In May will come our graduation; we shall receive our diplomas and step out into life. There, our paths will diverge, perhaps never to meet again. Each will go his own separate way. Some of us shall go on to higher education, while others will enter the worlds of business or domestic life. Always, though, we shall have one thing in common - our years at Honaker High School. We have shared many years of fun, laughter, and learning. We are bound in a kinship that cannot be dissolved.

London Bridge is falling down.

Our group had 23% fewer cavities.

Wish I had my teeth back!

Hard-working students decorate for Homecoming dance.

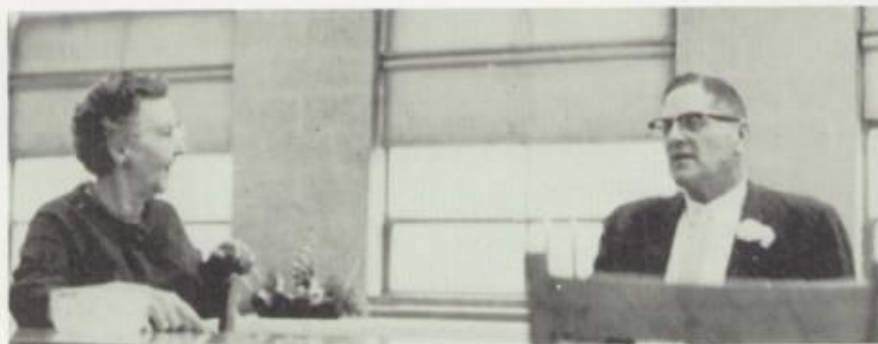

Two's company, Three's a crowd.

Now where in the world did that ball go?

Deposit a quarter, please.

I don't think that is funny.

Is it a bird . . . Is it a plane . . . ?

When are we going to eat?

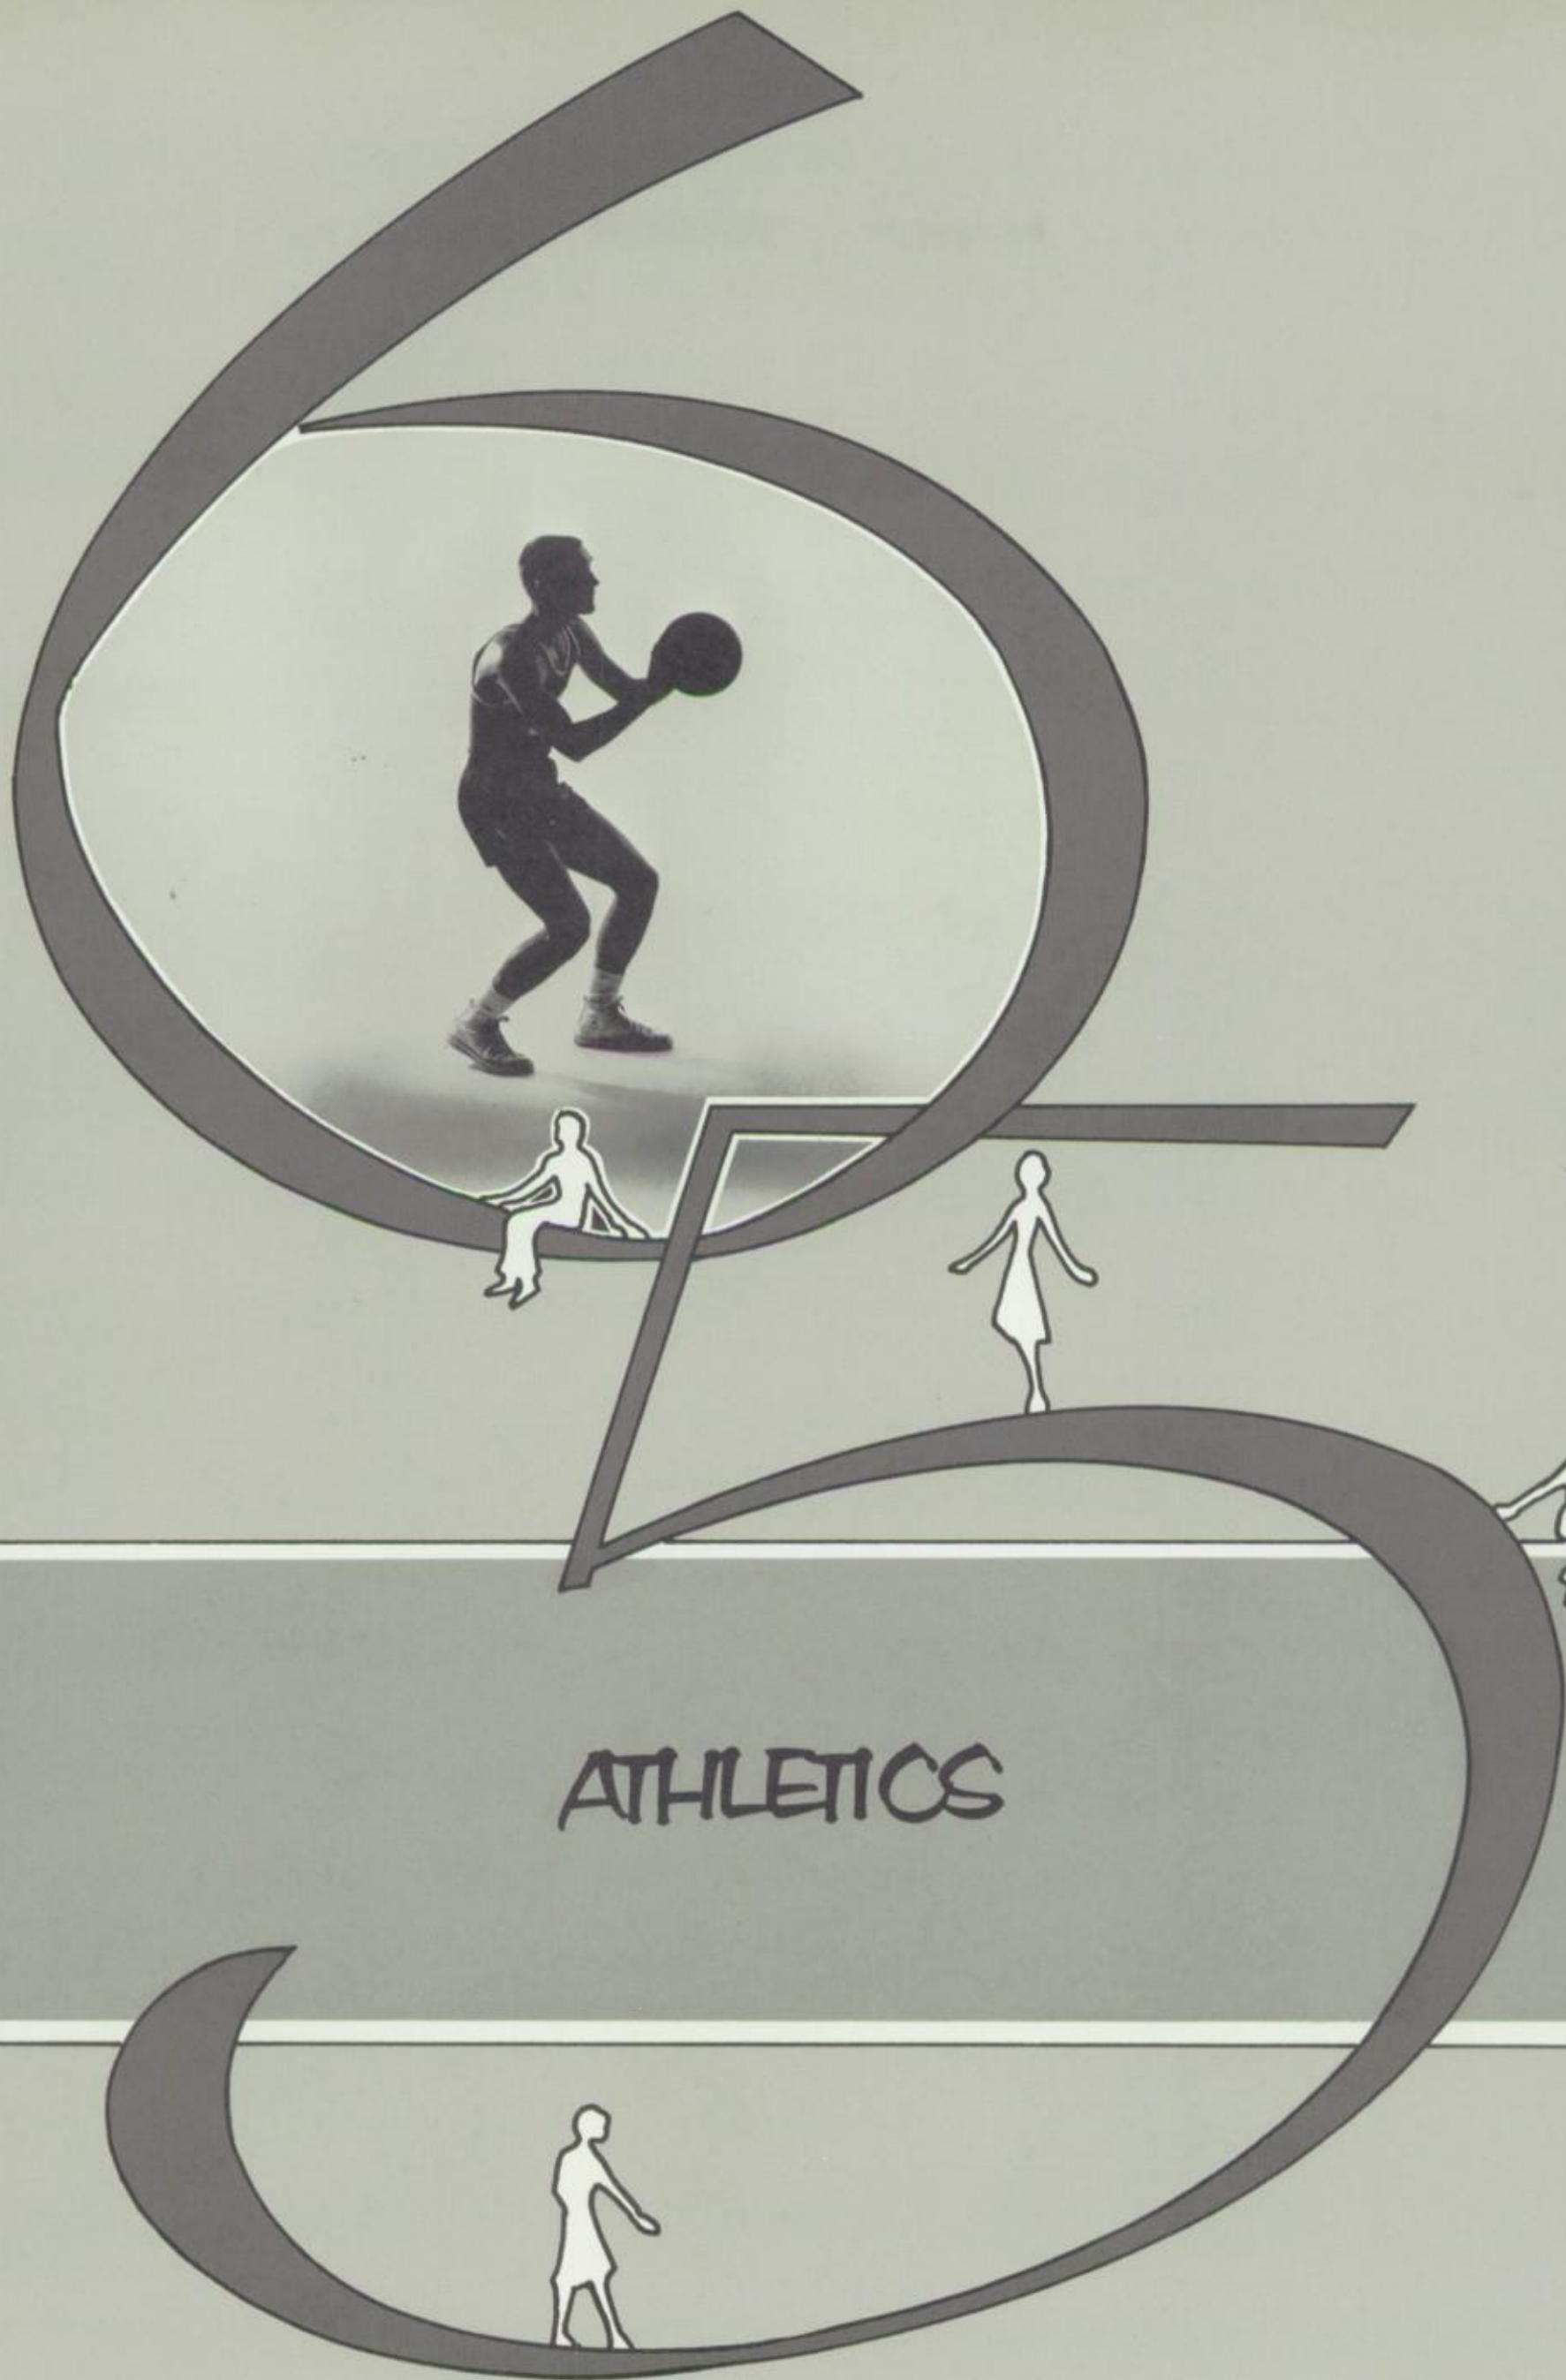

Is this the SCA District Meeting???

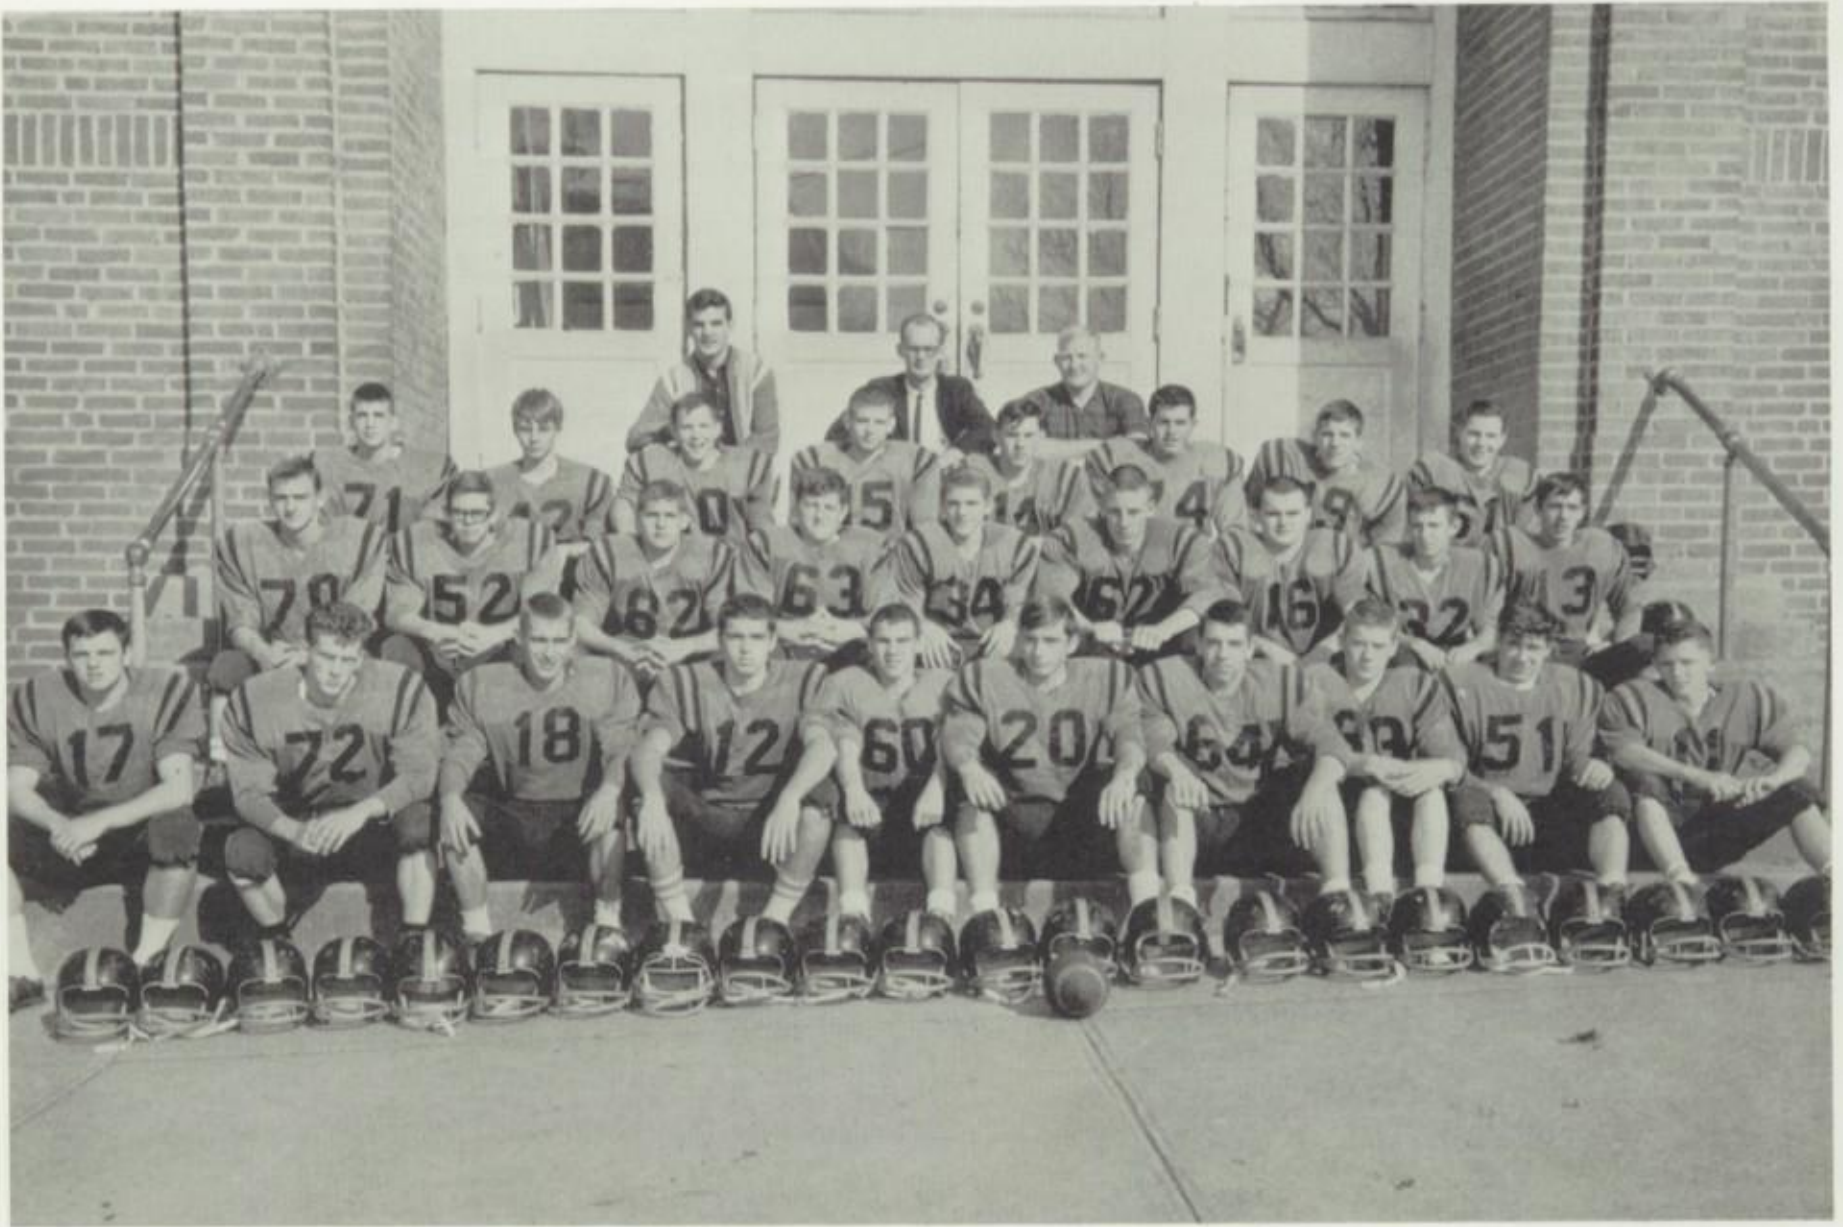

Look what I got for being a good boy!

Opportunities Like
Edison had are

WAITING FOR YOU

The inventions of Thomas Edison have affected the lives of people everywhere. They have created entire industries — ours, for example.

Under America's Free Enterprise system, inventive people like Edison can expect special compensations — profit, honor and satisfaction.

The hope of attaining such rewards has been one of our nation's greatest incentives to progress. It is a goal that prods imaginative minds in their quests for new products and methods.

Not everyone can be a Thomas Edison. However, every trained, dedicated graduate can anticipate a full measure of our society's rewards. All it takes is a willingness to work harder and contribute more.
